

At Conti di San Bonifacio Winery we offer an **internship for 3, 6 or 9 months** in our wine resort and winery in Tuscany. One of the main requirements is a full and professional knowledge of the **English language** and any other language will be an asset. The knowledge of the Italian language is not a must since the majority of the staff is multilingual.

Since it is an internship we don't require any specific knowledge but we ask the applicant to be in a *Wine University* and to have a *basic knowledge about wine business and Italian wines*. We will provide the accommodation for the intern at no cost. And meals are provided as well.

Students will spent most time in the **Sales & Marketing department** where there are several projects interns work on, including: looking for new importers, contacting them and trying to finalise the sale, do wine tastings for clients in our winery, work on a daily basis on our social media, sell our wines to clients in the wine resort and external guests directly, work actively in the vineyard and winery with the Estate Manager. Other things include dealing with our Wine Club and special promotions e.g. Christmas or Thanksgiving.

The gratifications will be:

- the accommodation in an apartment not far from our estate (11km).
- the possibility to work in a nice, friendly and international environment where the intern will be integrated as a full part of the staff.
- meal for the staff during working hours (8 hours for 5 days a week) and a small salary depending on their previous experiences.
