

Goodbye

seminar

..by FIRS>T senior students

Friday, October 31th

Room 6302 Palazzo della Ricerca e Conoscenza, FEM

9.00-9.30 **FEDERICO OSSI**

Ecological determinants of roe deer spatial behaviour under limiting conditions

9.30-10.00 **SANTOSH REVADI***

Intra- and inter-specific communication in *Drosophila suzukii*: from genome to behavior

10.00-10.30 **MANUELA MILAN**

The combined effects of nutrients and climate on plankton dynamics in Lake Garda

10.30-10.45 BREAK

10.45-11.15 **PIETER WOLTERS***

Molecular aspects of columnar growth in apple

11.15-11.45 **LORENA LEONARDELLI**

Grapevine acidity: SVM tool development and NGS data analyses

11.45-12.15 **JUSTIN LASHBROOKE***

Coordination of Epidermal Cell Development and Cuticular Lipid Biosynthesis in Tomato

12.15-12.45 **MATTIA GASPEROTTI**

Fruit Polyphenols and their Fate in the Mammalian System after Ingestion

*Videoconference
